

SAFARIN STEEL

PRECISION. STRENGTH. TRUST.

Your trusted partner for high-quality steel products and reliable construction solutions.

ESTABLISHED - 1990

ABOUT US

At Safarin Steel, we don't just supply materials, we deliver confidence.

We specialize in premium tubes, pipes, steel sheets, beams, and industrial accessories, designed for professionals who build with precision.

With an unwavering commitment to wholesale excellence, we ensure you have everything you need to construct with certainty.

With Safarin Steel, strength starts here.

SOLUTIONS

Addressing the challenges in the steel supplying industry

1

Reliable delivery of high-quality steel products for projects

2

Extensive inventory ensures **on-time availability** for contractors' needs

3

Expert support from our team for optimal project solutions

SQUARE TUBES

Square steel tubes provide **high strength** with a **clean, uniform shape**, ideal for **frames, structures, gates, and fabrication** projects.

Available in a **wide range** of **sizes** and **thicknesses** for both light and heavy-duty use.

Also offered in **galvanized finish** for added rust protection.

HOLLOW SECTION

RECTANGULAR TUBES

Rectangular steel tubes offer **excellent strength** and **stability**, making them **perfect** for **structural frames**, **supports**, and **fabrication** projects.

Available in a **wide range** of **dimensions** and **thicknesses** to suit various **industrial** and **construction needs**.

Also offered in **galvanized** finish for **longer-lasting durability**.

FASOON TUBES

Fasoon tubes have a **special shape** that makes them **strong** and **perfect** for **metal door frames**. They look **clean**, are **easy to work** with, and come in **different sizes** and **thicknesses**.

HOLLOW SECTION

WELDED PIPES

Welded pipes are ideal for **structural supports, fabrication, and industrial systems**.

They offer **strong performance** with a **smooth** finish and **consistent** thickness.

Available in a **variety** of **diameters** and **thicknesses** to suit different applications. Also offered in **galvanized finish** for extra corrosion protection.

GALVANIZED SHEETS

Durable galvanized sheets coated with a protective layer of **zinc** to ensure superior resistance against rust and harsh weather conditions. Ideal for roofing, ducting, protective covers, and a wide range of metal applications.

Available in **various thicknesses and dimensions**, offered in both coil and flat sheet formats.

PICKLED SHEETS

High-quality pickled sheets that are smooth and free from rust or scale, making them **perfect for painting, bending, and welding.**

Ideal for fabrication work — **available in a range of sizes and thicknesses.**

CORRUGATED SHEETS

Durable corrugated sheets are shaped for **extra strength and long-lasting** performance. Perfect for roofing, wall cladding, and sheds — providing excellent protection with a clean, industrial look.

Available in **pre-painted finishes**, in various lengths and thicknesses to suit every project.

MESH SHEETS

Durable **steel mesh** ideal for **fencing, security panels, cages, and filtration.**

Provides **strength, visibility,** and ventilation in one design.

Available in various **mesh sizes** and **wire thicknesses.**

PERFORATED SHEETS

Metal sheets with **precision-cut holes** made by **CNC**, available in various **designs** and **patterns**. Perfect for **ventilation, decorative panels, filtration, and safety covers**.

Offered in different **hole shapes, sizes, and thicknesses**.

LEXAN SHEETS

Strong, transparent, and impact-resistant – ideal for **skylights, roofing, safety glazing, and greenhouses.**

They offer **excellent UV protection** and are **much stronger than glass**, yet **lightweight** and **easy to install**. Available in a range of **thicknesses, colors, and finishes.**

BLACK PLATES

We provide **high-quality flat black steel plates**, ideal for **welding, shaping**, and general fabrication, available in multiple **sizes** and **thicknesses** to meet the needs of industries and metalworkers.

CHEQUERED PLATES

Feature a raised **diamond** or **tear-drop** pattern that provides **excellent grip and slip resistance.**

Ideal for industrial **floors, stairs, walkways,** and **vehicle platforms.**

Available in a variety of **thicknesses, sizes,** and finishes for both **light** and **heavy-duty** applications.

CIRCULAR RODS

Our circular steel rods are ideal for **machining, fabrication, shafts, and reinforcement** purposes. Renowned for their **exceptional strength and durability**, these rods are also **easy to cut, weld, and shape**, making them highly versatile across a wide range of applications.

Available in **multiple diameters** to perfectly match the requirements of any project.

TWISTED ROD

Twisted steel rods have a **spiral** design that adds **style** and **strength**, making them **ideal for gates, railings, and grills**.

Available in **various diameters** to **suit different projects**.

FLAT ROD

Are ideal for **brackets**, **supports**, **frames**, and **general fabrication**.

Their flat, rectangular shape makes them **easy to cut**, **weld**, and **drill** for a wide range of **structural** and **decorative uses**.

Available in **various widths**, and **thicknesses**.

SQUARE RODS

Square rods offer **uniform strength** and are **perfect for grills, gates, shafts, tools, and decorative ironwork.**

Their solid **square shape** allows for **easy machining, welding, and fabrication.**

Available in a **wide range of sizes** to suit light and heavy-duty applications.

ANGLES

Equal steel angles have **equal leg lengths**, providing **uniform strength** in all directions — ideal for **frameworks, shelves,** and **structural bracing**.

Available in a **wide variety** of **dimensions** and **thicknesses** to fit different project needs.

BEAMS

We offer a full range of **steel beams** including **I-Beams**, **H-Beams**, and **U-Channels** — all designed for **strength**, **stability**, and **structural support**.

Ideal for **buildings**, **bridges**, **frames**, and **industrial projects**, our beams come in **various sizes** and **thicknesses** to meet your construction needs.

PAINT CANS

Includes primer, finish, anti-rust,
and powder coating.

SAFARIN STEEL
PRECISION. STRENGTH. TRUST.

WHY CHOSE US

Commitment to integrity
and quality service

1

We prioritize **ethical practices** in all our operations.

2

Our team is dedicated to providing **top-notch customer support.**

3

We ensure timely deliveries to meet **project deadlines** effectively.
